WORK EXPERIENCE

Web Developer

REAK Infotech LLP

10/2018 - 04/2019

Jabalpur (M.P.)

Project : Reak Infotech LLP | Translation Marketplace Portal

- This project is about the translation of documents by the translators from one language to other. It was designed in PHP. It has a Admin and a Translator Panel. Orders were came from JotForm through Jotform API.
- As the order came through Jotform, an email will send to the translator whose languages matches and to admin also. In this we use Sendgrid API to send emails.

Project : Reak Infotech LLP | Ikemian Portal

- This project made in WordPress backend as PHP. It is a e-commerce site. WooCommerce was integrated in this project for the payment by the buyer.
- Built, tested and deployed scalable, highly available and modular software products.
- Collaborated on all stages of systems development lifecycle, from requirements gathering to production releases with latest techniques to fully utilize modern browser potential.
